2. Search Filter.

Guest users search for icons and land on the Search page.

A. Entry Point

- The user lands on the search page from the homepage or directly accesses the search bar.
- The user types a search keyword (e.g., "Add") in the search field.
- The system returns icon results matching the query.

B. Applying Filters

Users can refine their search results using various filters available in the UI.

C. Filter Options:

- **Icon Style:**
 - Outline
 - Fill
 - Linear Color
 - 3D
 - Hand-Drawn
 - Gradient
- **Shapes:**
 - Outline
 - Fill
 - 3D
 - Gradient
 - Linear Color
 - Hand Drawn

D. Customization Controls:

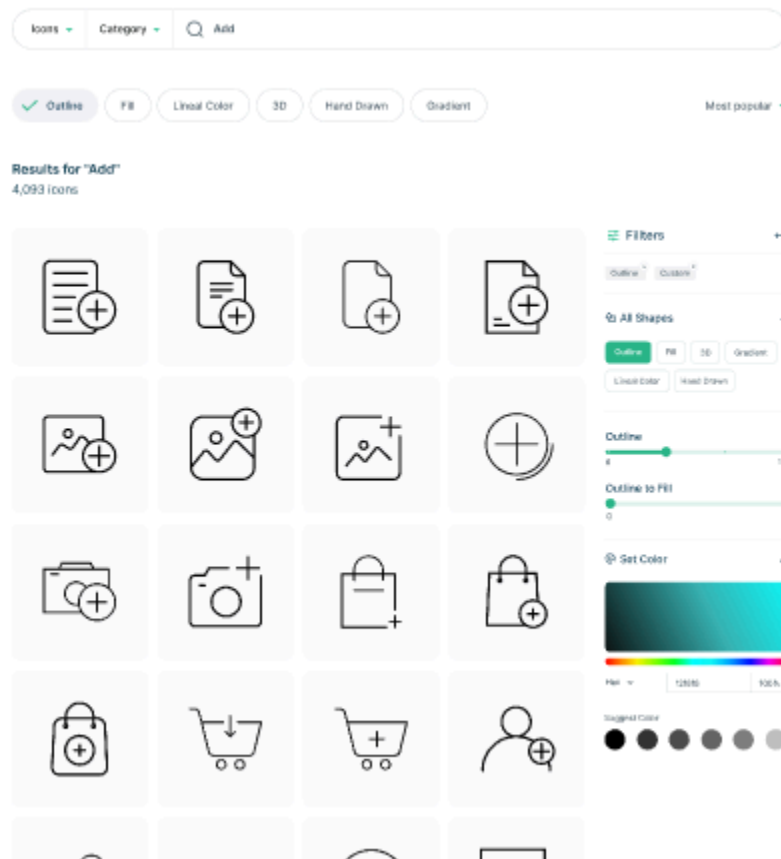

- Outline Thickness Slider – Adjust the thickness of the outline.
- Outline to Fill Slider – Convert an outline icon into a filled icon.
- Color Picker – Customize the icon color using a HEX/RGB selector or predefined colors.

E. Suggest Color:

- Suggested Color appears under this section

F. Viewing & Selecting Icons

- The user scrolls through search results.
- Hover on an icon to view the Add Collection, download, and Copy the icon options.
- Use the "Load More" button to explore additional icons.

3. Opened Icon window

Guest users click on any icon and are directed to the icon edit window.

A. Perform an Action

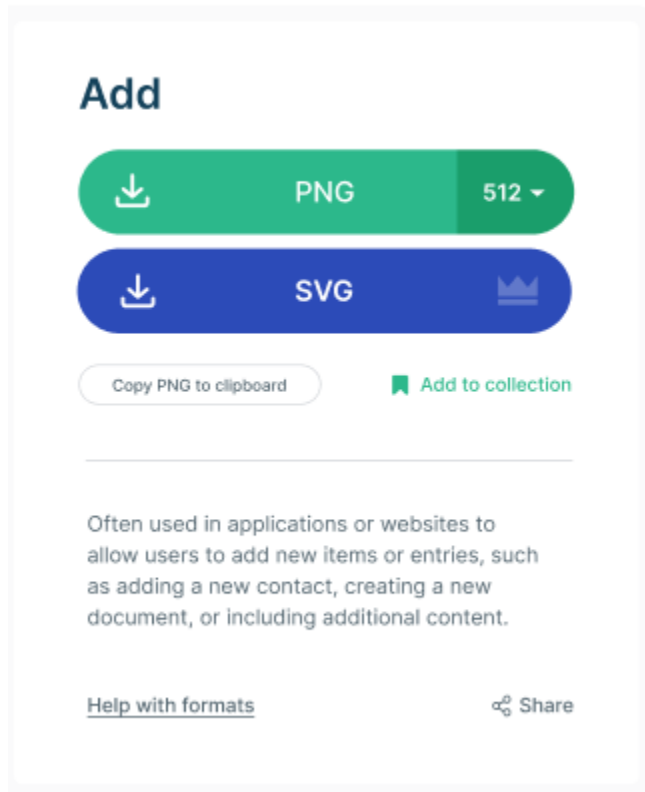

The user chooses one of the available actions:

- **Download PNG:**
 - The user clicks on the "PNG" button.
 - A dropdown lets the user choose the resolution (e.g., 16px to 512px, etc.).
 - The PNG file is downloaded to their device.

- Guest users can **Max download** (15 icons per day)
- **Download SVG:**
 - The user clicks the "SVG" button.
 - For Premium Users pop-up modal appears (User needs to log in and buy a subscription)
- **Copy PNG to Clipboard:**
 - The user clicks the "Copy PNG to Clipboard" button.
 - A success message confirms the icon has been copied to the clipboard.
- **Add to Collection:**
 - The user clicks the "Save" icon.
 - Only for login Users pop-up modal appears (User needs to log in or Create an account to save icons in the collection)

- **Share Icon:**
 - The user clicks the "Share" button.
 - 4 Options appear (Facebook, Pinterest, Twitter, and Copy link).

- **Help with formats**
 - The user clicks the "Help with formats" hyperlink.
 - Modal appears with format details.

B. Display icon Shapes tabs

Icons category tabs appear on top of the menu

- **Outline**
- **Fill**
- **Lineal Color**
- **3D**
- **Hand Drawn**
- **Gradient**

C. Display Edit Options Menu

Upon selecting the icon, the **Edit Panel** appears (contextual menu or side panel). The panel includes the following options:

- **Color**
- **Shapes**
- **Rotate**
- **Flip**
- **Fill**
- **Outline**
- **Reset**
 - **Color:**
 - **Action:** The user selects a color option to change the icon's primary color.
 - A color picker tool or a set of predefined color swatches is displayed.
 - The user clicks on a color and the icon updates in real time.

D. Shapes:

- **Action:** The user chooses from a set of predefined shapes to replace or modify the current icon.
 - Example: Replace a circular border with a square or change the icon's outer design to transparent.

E. Rotate:

- **Action:** The user rotates the icon clockwise or counterclockwise.
 - A Left/Right Rotation buttons (e.g., 90°, 180°, 270°) allow precise adjustments.
 - A real-time preview of the rotation is shown.

F. Flip:

- **Action:** The user flips the icon vertically or horizontally.
 - A single-click toggle flips the icon along the selected axis.
 - Example: Horizontal flip mirrors the icon left-to-right.

G. Fill:

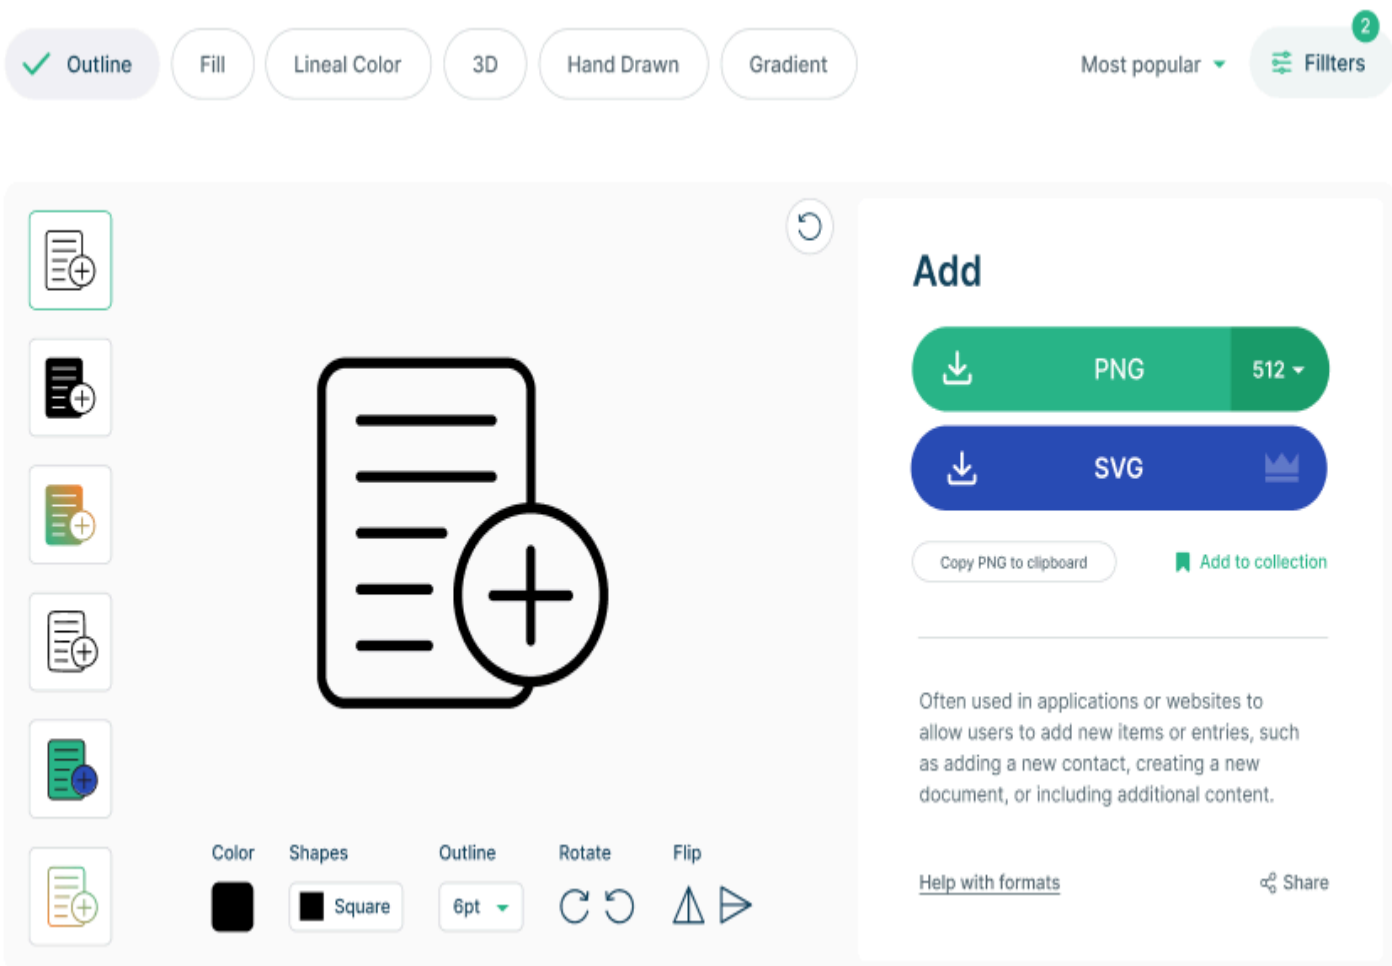

- **Action:** The user modifies the **Fill** color of the icon (inner area).
 - A color picker or preset fill options (solid, gradient, or patterns) are provided.
 - The icon updates dynamically with the selected fill.

H. Outline:

- **Action:** The user adjusts the **Outline** properties of the icon (outer border).
 - Controls include:
 - Outline Color: Pick or modify the color.
 - Thickness: Adjust the width of the border using a value (e.g. 4pt, 6pt).
 - Style: Choose between solid, dashed, or dotted outlines.

I. Reset:

- **Action:** The user chooses Reset options after changing the icon
 - The icon reset to its default form.

6. Downloading Icons limitations for Guest Users

- Guest users can download icons in PNG format. (15 icons per day)

- Users can copy icons directly into the clipboard
- Users can share icons through social platforms (Facebook, Pinterest, Twitter, and Copy link)
- Royalty-free, commercial licenses ❌
- Not able to create a collection
- Unable to use the editor
- Download history (24 hours only)
- No Ads ❌
- **For advanced formats and Unlimited downloads (EPS, SVG, PNG), users are prompted to log in or upgrade.**

1. Sign Up Flow

Objective: Allow new users to create an account on the platform.

Steps:

A. Access Sign Up Page:

- a. The user clicks the "Sign Up" button from the homepage or login page.

B. Fill in Details:

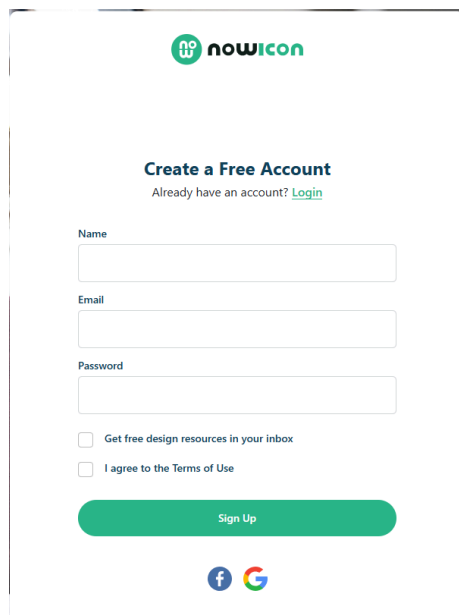

- a. The user enters the following information:
 - i. Name (Text Input Field)
 - ii. Email (Text Input Field)
 - iii. Password (Text Input Field - Hidden for security)
- b. Users can optionally:
 - i. Check the box to receive free design resources in their inbox.
 - ii. Must check the box to agree to the **Terms of Use** before proceeding.

C. Sign Up Options:

- a. Users can click the "Sign Up" button to create an account.
- b. Alternatively, they can sign up using:
 - i. **Facebook** (OAuth Integration)
 - ii. **Google** (OAuth Integration)

D. Account Creation Confirmation:

- a. Upon successful account creation, the user is redirected to the dashboard or a welcome page.
- b. An error message is displayed if an error occurs (e.g., invalid email, weak password, or existing account).

The screenshot shows a web form titled "Create a Free Account" for the "nowicon" platform. At the top, there is a logo with a green square containing a white 'W' and the text "nowicon". Below the title, a link "Login" is provided for users who already have an account. The form contains three input fields: "Name", "Email", and "Password". Below these fields are two checkboxes: "Get free design resources in your inbox" and "I agree to the Terms of Use". A prominent green "Sign Up" button is located at the bottom of the form. At the very bottom, there are social media icons for Facebook and Google.

2. Sign In Flow

Objective: Allow existing users to log in to their accounts.

Steps:

A. Access Sign In Page:

- a. The user clicks on the "Login" link on the sign-up page or the homepage.

B. Enter Credentials:

- a. User inputs:
 - i. Email
 - ii. Password
- b. Click on the "Login" button to proceed.

C. Alternative Login Methods:

- a. Users can log in using:
 - i. **Facebook Login**
 - ii. **Google Login**

D. Successful Authentication:

- a. Upon successful login, the user is redirected to their dashboard.

E. Failed Authentication:

- a. If the credentials are incorrect, an error message is displayed.
- b. User can choose to reset their password by clicking "Forgot Password."

2. Logged-In User Flow (Complete)

1. Landing Page (Primary Interactions): (Login User)

The **Landing Page User Flow** outlines how users interact with the platform to search, browse, and explore icons efficiently. Users can search for specific icons, navigate through trending categories, explore popular icon packs and styles, and discover the latest updates. This section enables users to find and access relevant icon resources seamlessly, enhancing their overall experience.

A. Searching for Icons

- The user enters a keyword in the search bar.

- Icon category (Outline, Fill, Lineal Color, 3D, Hand Drawn, Gradient)
- Search suggestions appear (if applicable).
- The user selects a suggestion or presses Enter.
- Redirects to the search results page.

B. Browsing Categories

- The user scrolls to the “Trending Categories” section.
- Clicks on a category.
- Redirects to the respective category page displaying related icons.

C. Exploring Trending Icon Packs

- The user scrolls to the “Trending Icon Packs” section.
- Clicks on a specific icon pack.
- Redirects to the pack’s detailed page with available icons.

D. Viewing Popular Styles

- The user scrolls to “Popular Styles” (e.g., Black Filled, Black Outline).
- Clicks on a style.
- Redirects to a filtered page showing icons in that style.

E. Discovering What's New

- The user scrolls to the “What’s new on NowIcons” section.
- Clicks on a featured article or guide.
- Redirects to an informational blog or guide page

2. Search Filter.

The Search & Filter User Flow allows users to efficiently find and refine icon searches based on style, shape, and customization preferences. Users enter a keyword, browse results, and apply filters to narrow their selection. Customization options like outline thickness, fill conversion and color selection enhance the experience. Users can preview icons, add them to collections, and download, or copy them for easy use.

Guest users search for icons and land on the Search page.

A. Entry Point

- The user lands on the search page from the homepage or directly accesses the search bar.
- The user types a search keyword (e.g., "Add") in the search field.
- The system returns icon results matching the query.

B. Applying Filters

Users can refine their search results using various filters available in the UI.

C. Filter Options:

- **Icon Style:**
 - Outline
 - Fill
 - Linear Color
 - 3D
 - Hand-Drawn
 - Gradient
- **Shapes:**
 - Outline
 - Fill
 - 3D
 - Gradient
 - Linear Color
 - Hand Drawn

D. Customization Controls:

- Outline Thickness Slider – Adjust the thickness of the outline.
- Outline to Fill Slider – Convert an outline icon into a filled icon.
- Color Picker – Customize the icon color using a HEX/RGB selector or predefined colors.

E. Suggest Color:

- Suggested Color appears under this section

F. Viewing & Selecting Icons

- The user scrolls through search results.

- Hover on an icon to view the Add Collection, download, and Copy the icon options.
- Use the "Load More" button to explore additional icons.

3. Opened Icon window

The Icon Customization & Download User Flow enables users to interact with icons by performing various actions such as downloading in different formats (PNG, SVG), copying to the clipboard, adding to collections, and sharing via social media. Users can also edit icons by adjusting colors, shapes, rotation, flipping, fill, and outline properties. A reset option allows users to revert changes to default settings. This flow enhances the user experience by providing customization and accessibility options before finalizing the icon selection.

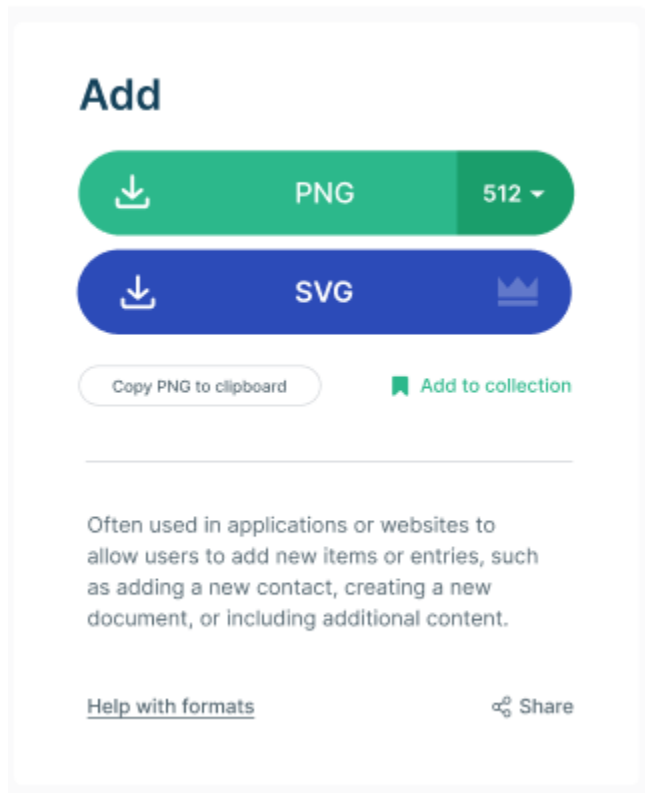

Login users click on any icon and are directed to the icon edit window.

A. Perform an Action

The user chooses one of the available actions:

- **Download PNG:**
 - The user clicks on the "PNG" button.
 - A dropdown lets the user choose the resolution (e.g., 16px to 512px, etc.).
 - The PNG file is downloaded to their device.
 - Guest users can **Max download** (25 icons per day)
- **Download SVG:**
 - The user clicks the "SVG" button.
 - For Premium Users pop-up modal appears (User needs to buy a subscription)
- **Copy PNG to Clipboard:**
 - The user clicks the "Copy PNG to Clipboard" button.
 - A success message confirms the icon has been copied to the clipboard.
- **Add to Collection:**
 - The user clicks the "Save" icon.
 - On the save icon modal “**Create collection**” field appears on the modal (if the collection is not created before adding icons)
 - On the save icon modal “Created collection” appears on the modal.(if the collection is created before adding icons)
 - The user selects the collection and clicks on the “Add to Collection” button
 - Icon saved in collection successfully
- **Share Icon:**

- The user clicks the "Share" button.
- 4 Options appear (Facebook, Pinterest, Twitter, and Copy link).
- **Help with formats**
 - The user clicks the "Help with formats" hyperlink.
 - Modal appears with format details.

B. Display icon Shapes tabs

Icons category tabs appear on top of the menu

- **Outline**
- **Fill**
- **Lineal Color**
- **3D**
- **Hand Drawn**
- **Gradient**

C. Display Edit Options Menu

Upon selecting the icon, the **Edit Panel** appears (contextual menu or side panel). The panel includes the following options:

- **Color**
- **Shapes**
- **Rotate**
- **Flip**
- **Fill**
- **Outline**
- **Reset**
 - **Color:**
 - **Action:** The user selects a color option to change the icon's primary color.
 - A color picker tool or a set of predefined color swatches is displayed.
 - The user clicks on a color and the icon updates in real time.

D. Shapes:

- **Action:** The user chooses from a set of predefined shapes to replace or modify the current icon.
 - Example: Replace a circular border with a square or change the icon's outer design to transparent.

E. Rotate:

- **Action:** The user rotates the icon clockwise or counterclockwise.
 - A Left/Right Rotation buttons (e.g., 90°, 180°, 270°) allow precise adjustments.
 - A real-time preview of the rotation is shown.

F. Flip:

- **Action:** The user flips the icon vertically or horizontally.
 - A single-click toggle flips the icon along the selected axis.
 - Example: Horizontal flip mirrors the icon left-to-right.

G. Fill:

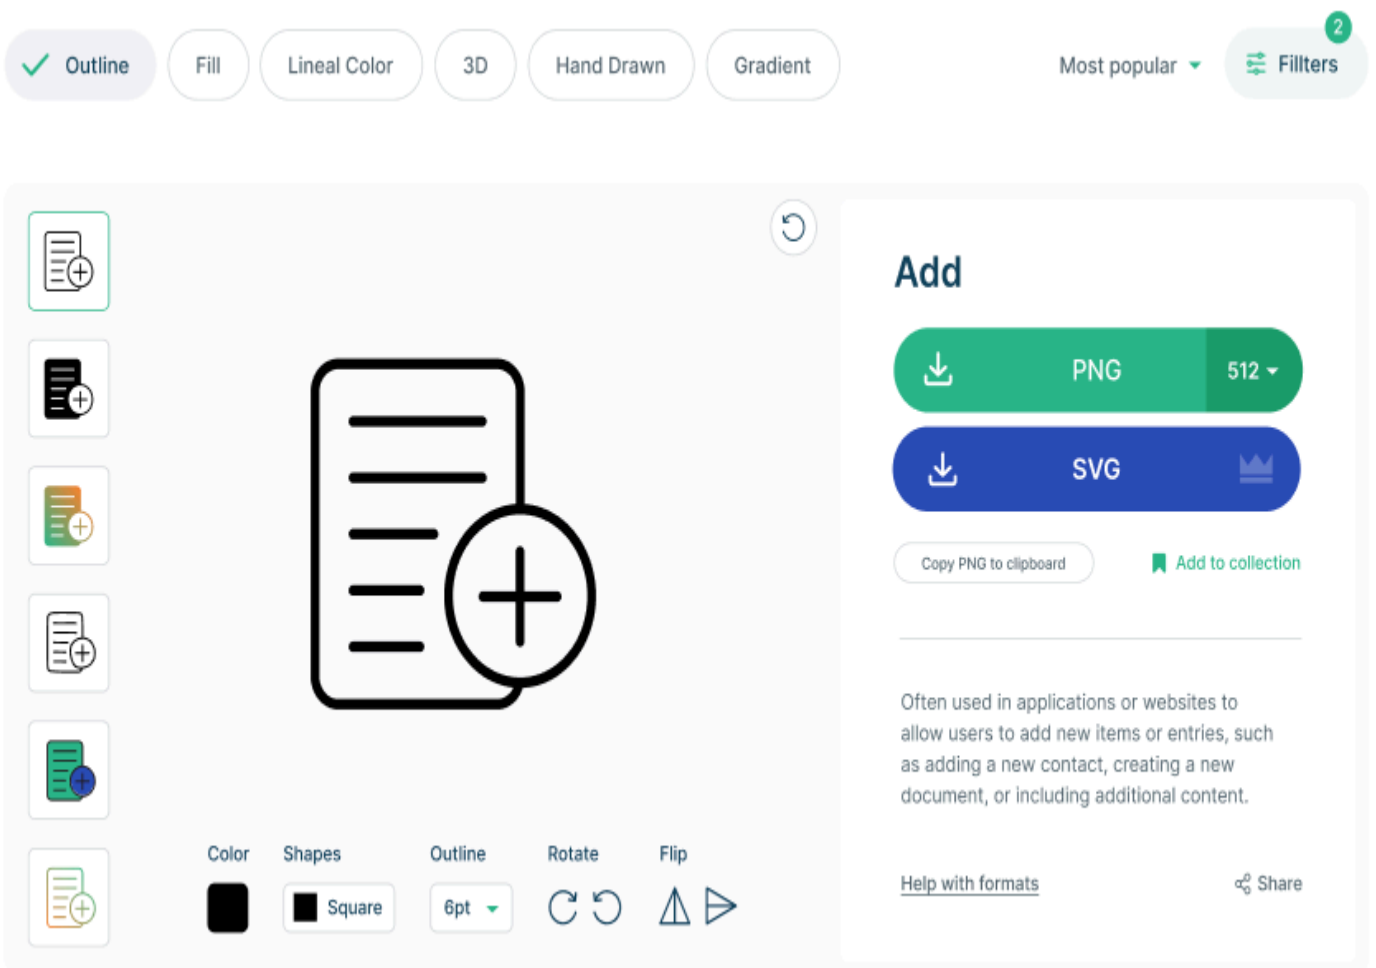

- **Action:** The user modifies the **Fill** color of the icon (inner area).
 - A color picker or preset fill options (solid, gradient, or patterns) are provided.
 - The icon updates dynamically with the selected fill.

H. Outline:

- **Action:** The user adjusts the **Outline** properties of the icon (outer border).
 - Controls include:
 - Outline Color: Pick or modify the color.
 - Thickness: Adjust the width of the border using a value (e.g. 4pt, 6pt).
 - Style: Choose between solid, dashed, or dotted outlines.

I. Reset:

- **Action:** The user chooses Reset options after changing the icon
 - The icon reset to its default form.

4. Downloading Icons limitations for Login Users

- Login users can download icons in PNG format. (25 icons per day)
- Users can copy icons directly into the clipboard

- Users can share icons through social platforms (Facebook, Pinterest, Twitter, and Copy link)
- Royalty-free, commercial licenses ✗
- Add icons to the collection
- Create Collection (3 Max)
- Unlimited use of editor (Only for PNG)
- Download history (2 Weeks)
- No Ads ✗
- **For advanced formats and Unlimited downloads (EPS, SVG, PNG), users are prompted to log in or upgrade.**

5. Viewing Collections

The Collections allows users to organize and manage their saved icons efficiently. Users can create, view, rename, and delete collections, with a limit of three collections for free users. Within a collection, users can browse, select, and delete multiple icons or download them in various formats PNG Max 25 (SVG, EPS for premium users). Bulk actions streamline icon management, while a confirmation process ensures the safe deletion of icons and collections. This flow enhances usability by providing seamless access to stored icons for future use.

- The user accesses the **Collections** page.(Form Main menu)
- Available collections are displayed as folders/cards with names and the number of stored icons.
- Users can browse through the collections.

Possible Actions:

- A. Click on a collection to view the stored icons.
- B. Create a new collection.
- C. Rename an existing collection.
- D. Delete a collection.
- E. Select multiple icons for deletion.
- F. Download Collection

A.. Creating a New Collection (Max 3 collection)

- The user clicks on the **Create New Collection** button.
- A modal appears asking for the collection name.
- The user enters the desired name and confirms.

- The new collection appears in the collections list.

B. Viewing Icons in a Collection

- The user clicks on a collection.
- A grid of saved icons appears.
- The user can:
 - Click an icon to view details.
 - Download an icon.
 - Delete one or multiple icons.

C. Selecting & Deleting Icons from a Collection

- The user hovers over an icon.
- A checkbox appears, allowing selection.
- The user selects multiple icons.
- A **Delete** button appears.
- Upon clicking delete, a confirmation modal appears.
- If confirmed, the selected icons are removed from the collection.

D. Deleting an Entire Collection

- Click on the collection Kebab menu.
- Two options appear (Edit, Delete Collection) icon appears.
- The user clicks delete.
- A confirmation modal appears.
- If confirmed, the collection is permanently deleted.

E. Downloading Icons from Collections

- The user selects an icon inside a collection.
- Click the **Download** button.
- A modal appears with format options:
 - PNG
 - SVG (for premium users)
 - EPS (for premium users)
- The user selects the format and clicks **Download**.
- The icon file is saved to the user's device.

F. Editing Collection Names

- Click on the collection Kebab menu.
- Two options appear (Edit, Delete Collection) icon appears.

- The user clicks the edit icon.
- A modal appears to enter the new name.
- After confirming, the collection is updated with the new name.

E. Bulk Actions in Collections

- The user selects multiple icons.
- Options appear:
 - **Delete selected icons.**

6. Profile.

A. Entry Point

- The user is logged in and clicks on the **profile icon** in the top-right corner.
- A drop-down menu appears with the following options:
 - **Profile**
 - **Downloads History**
 - **My Subscription**
 - **Support**
 - **Logout**

B. User Actions & Navigation

Profile Management enables users to access and update their personal information, security settings, and preferences. Users can navigate to their profile via the top-right menu and manage details such as username, real name, and connected accounts. They can change passwords (if applicable), adjust notification preferences, and review subscription details. Additionally, users have the option to delete their accounts after confirmation. This flow ensures seamless account control and customization, enhancing user experience and security.

1. Profile

- The user is redirected to the Profile page.
- The Profile page consists of the following sections:
 - **User Information**
 - Displays the user's profile name and profile picture.
 - **Connected Accounts**
 - Shows login methods (e.g., Facebook, Google).

- Displays the connected accounts.
- **Account Data**
 - Username
 - Email
 - Real Name
- **Notifications**
 - Toggle switch to enable/disable email notifications for:
 - Newsletter subscriptions
 - New icon updates
 - Promotions
- **Security Options**
 - The "Change Password" option is available for users who registered with email/password.
 - Users who registered via social login (Google, Facebook) may not see this option.

Profile Page Actions

A. Updating User Information

- The user can update the **Username** and **Real Name**.
- The user clicks on the text fields to modify information.
- A "Save Changes" button is available.
- Clicking "Save Changes" successfully updates the details.

B. Changing the Password

- The user clicks on the "Change Password" link.
- A pop-up modal appears with fields:
 - **Current Password**
 - **New Password**
 - **Confirm New Password**
- The user enters the current password and the new password.
- Clicking the "Set New Password" button updates the password.
- A success message confirms the password update.

C. Managing Notifications

- The user can toggle the email notification settings ON/OFF.
- A "Save Changes" button appears when modifications are made.
- Clicking "Save Changes" updates the notification preferences.

D. Deleting the Account

- The user sees a "Close My Account" option at the bottom of the page.
- Clicking the option prompts a confirmation message.
- The user can confirm or cancel the account deletion.
- If confirmed, the user account is permanently deleted.

2. Downloads History

- The user clicks on **Downloads History**.
- Navigate to a page displaying:
 - A **list of downloaded icons** with details (name, date, format).
 - Option to **re-download** previously downloaded icons.

3. My Subscription

- The user clicks on **My Subscription**.
- Navigate to a page displaying:
 - Current **subscription plan** (Free).
 - Available Plan Banner appears for free users.
 - Click on the "Go Premium" button
 - The billing details form appears.
 - Billing information
 - Payment method
 - Order details

4. Support

- The user clicks on **Support**.
- Navigate to a **help center** or support page where they can:
 - View FAQs.
 - Contact customer support.
 - Report issues or request assistance.

5. Logout

- The user clicks on **Logout**.
- The session ends, and the user is redirected to the **login/signup page**.

2. Premium User Flow (Complete)

1. Landing Page (Primary Interactions): (Premium User)

The **Landing Page User Flow** outlines how users interact with the platform to search, browse, and explore icons efficiently. Users can search for specific icons, navigate through trending categories, explore popular icon packs and styles, and discover the latest updates. This section enables users to find and access relevant icon resources seamlessly, enhancing their overall experience.

A. Searching for Icons

- The user enters a keyword in the search bar.
- Icon category (Outline, Fill, Lineal Color, 3D, Hand Drawn, Gradient)
- Search suggestions appear (if applicable).
- The user selects a suggestion or presses Enter.
- Redirects to the search results page.

B. Browsing Categories

- The user scrolls to the “Trending Categories” section.
- Clicks on a category.
- Redirects to the respective category page displaying related icons.

C. Exploring Trending Icon Packs

- The user scrolls to the “Trending Icon Packs” section.
- Clicks on a specific icon pack.
- Redirects to the pack’s detailed page with available icons.

D. Viewing Popular Styles

- The user scrolls to “Popular Styles” (e.g., Black Filled, Black Outline).
- Clicks on a style.
- Redirects to a filtered page showing icons in that style.

E. Discovering What's New

- The user scrolls to the “What’s new on NowIcons” section.
- Clicks on a featured article or guide.
- Redirects to an informational blog or guide page

2. Search Filter.

The Search & Filter User Flow allows users to efficiently find and refine icon searches based on style, shape, and customization preferences. Users enter a keyword, browse results, and apply filters to narrow their selection. Customization options like outline thickness, fill conversion and color selection enhance the experience. Users can preview icons, add them to collections, and download, or copy them for easy use.

Guest users search for icons and land on the Search page.

A. Entry Point

- The user lands on the search page from the homepage or directly accesses the search bar.
- The user types a search keyword (e.g., "Add") in the search field.
- The system returns icon results matching the query.

B. Applying Filters

Users can refine their search results using various filters available in the UI.

C. Filter Options:

- **Icon Style:**
 - Outline
 - Fill
 - Linear Color
 - 3D
 - Hand-Drawn
 - Gradient
- **Shapes:**
