Rc_26	This Group Chat tab displays all the groups the user has joined or created, enabling seamless communication with teammates and group members	Tc_218	Check that the Group Chat tab displays all groups the user has joined. Steps: Log in as a user who has joined multiple groups. Navigate to the Group Chat tab.	High	The Groups and chats tab should display a list of all groups the user has joined.			
		Tc_219	Check that the Group Chat tab displays all groups the user has created. Steps: Log in as a user who has created multiple groups. Navigate to the Group Chat tab.	High	The Groups and chats tab should display a list of all groups the user has created.			
		Tc_220	Check that, if user did not created any group, then no group will show him on the chats and groups section.	High	No group should show on the chat section and group chat should display error, "You haven't joined or created any groups yet".			
		Tc_221	Check that a user can send and receive messages seamlessly in a group chat accessed via the Group Chat tab. Steps: Open the Group Chat tab and select a group. Type a message in the chat input field and click "Send." Have another group member send a message.	High	The user's message should appear in the chat. The other member's message should received and displayed in real time.			
		Tc_222	Check that each group's details are displayed correctly in the Groups and chats tab. Steps: Log in as a user with multiple groups. Navigate to the Group Chat tab.	Medium	Each group should display: 1-Group name. 2-Last message or a placeholder like "No messages yet." 3-Unread message count.	Only the first case expected the result to pass. Others are not working as expected 1. "No Message yet" message not appear 2. Count not appears correctly Tc_13, Tc_14		
		Tc_223	Check that new messages in a group are reflected in the Group Chat tab in real time. Steps: Open the Group Chat tab. Have another group member send a message in one of the listed groups.	High	The affected group entry should update in real time to show the new message preview and unread message count.			
		Tc_224	Check that users can scroll through the chat history of a group. Steps: Open the Group Chat tab and select a group. Scroll up to load older messages in the group chat	Medium	Older messages should load seamlessly as the user scrolls up.			
		Tc_225	Check that the message of each group member display along with member profile and name.	High	On the group chat window, message should display with: 1- Participant name 2- Participant profile image, 3- time of the message.			
		Tc_226	Check that groups with unread messages are highlighted in the Group and Chats tab. Steps: Log in as a user with unread messages in one or more groups. Navigate to the Group Chat tab.	Medium	Groups with unread messages should show an indicator, such as a bold font or an unread message count.	Current Behaviour : unread message count.		
		Tc_227	Check that the Group Chat tab displays both created and joined groups correctly.	High	Created groups and joined groups should display in the same list without duplication or errors.			
		Tc_228	Check that a deleted group no longer appears in the Group Chat tab. Steps: Log in as a user who has joined or created a group. Delete the group or leave the group. Refresh the Group Chat tab.	High	The deleted group should no longer appears in the Group Chat tab.			
		Tc_229	Check that the Group Chat tab UI is responsive across different devices and screen sizes.	Medium	The Group Chat tab adjusts its layout to fit different screen sizes without losing functionality.	UI-related issues highlighted in this ticket https://isofttech.atlassian.net/browse/MAT-1218		
	The most recent conversation should always appear at the top. Conversations should be sorted such that the most recent activity is displayed first, followed by older conversations in descending order of recency.	Tc_230	Check Basic Sorting by Timestamp Input: Conversation A: Last activity at 2025-01-01 10:00:00 Conversation B: Last activity at 2025-01-01 12:00:00 Conversation C: Last activity at 2025-01-01 09:00:00	High	Output Should be: Conversation B (2025-01-01 12:00:00) Conversation A (2025-01-01 10:00:00) Conversation C (2025-01-01 09:00:00)	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.

Rc_27		Tc_231	Conversations with Identical Timestamps: Input: Conversation A: Last activity at 2025-01-01 10:00:00 Conversation B: Last activity at 2025-01-01 10:00:00	Medium	Expected Output: Conversation A (2025-01-01 10:00:00) Conversation B (2025-01-01 10:00:00) (Order may vary since timestamps are identical.)	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.		
		Tc_232	Mixed Time Zones: Input: Conversation A: Last activity at 2025-01-01 10:00:00 UTC Conversation B: Last activity at 2025-01-01 09:00:00 UTC+1	Medium	Conversation A (2025-01-01 10:00:00 UTC, equivalent to 2025-01-01 11:00:00 UTC+1) Conversation B (2025-01-01 09:00:00 UTC+1)	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.		
		Tc_233	Single Conversation with New Message: Input: Conversation A: 5 new messages.	Medium	Output: Total new messages in the Chat tab: 5	Counts not appear correctly		
		Tc_234	Multiple Conversations with New Messages: Conversation A: 3 new messages. Conversation B: 7 new messages. Conversation C: 10 new messages.	Medium	OutPut: Total new messages in the Chat tab: 20	Counts not appear correctly		
		Tc_235	If no unread message exists, then no count should be shown on the chat.	Medium		Counts not appear correctly		
		Tc_236	Check Basic Sorting by Timestamp Input: Conversation A: Last activity at 2025-01-01 10:00:00 Conversation B: Last activity at 2025-01-01 12:00:00 Conversation C: Last activity at 2025-01-01 09:00:00	High	Output Should be: Conversation B (2025-01-01 12:00:00) Conversation A (2025-01-01 10:00:00) Conversation C (2025-01-01 09:00:00)	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.		
		Tc_237	Conversations with Identical Timestamps: Input: Conversation A: Last activity at 2025-01-01 10:00:00 Conversation B: Last activity at 2025-01-01 10:00:00	Medium	Expected Output: Conversation A (2025-01-01 10:00:00) Conversation B (2025-01-01 10:00:00) (Order may vary since timestamps are identical.)	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.		
		Tc_238	Mixed Time Zones: Input: Conversation A: Last activity at 2025-01-01 10:00:00 UTC Conversation B: Last activity at 2025-01-01 09:00:00 UTC+1	Medium	Conversation A (2025-01-01 10:00:00 UTC, equivalent to 2025-01-01 11:00:00 UTC+1) Conversation B (2025-01-01 09:00:00 UTC+1)	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.		
		Tc_239	Single Conversation with New Message: Input: Conversation A: 5 new messages.	Medium	Output: Total new messages in the Chat tab: 5	Counts not appear correctly		
		Tc_240	Multiple Conversations with New Messages: Conversation A: 3 new messages. Conversation B: 7 new messages. Conversation C: 10 new messages.	Medium	OutPut: Total new messages in the Chat tab: 20	Counts not appear correctly		
		Tc_241	If no unread message exists, then no count should be shown on the chat.	Medium		Counts not appear correctly		
		Tc_242	Check that the order of conversations is preserved across login sessions. Steps: Log in to the application and access the conversation list. Note the order of conversations based on the most recent activity. Log out and log back in.	High	The conversation list is displayed in the same descending order of recency.			
		Tc_243	Check that a newly created conversation appears at the top of the list. Steps: Create a new conversation. Return to the conversation list.	Medium	The newly created conversation should appear at the top of the list.			
		Tc_244	Check that the UI clearly reflects the order of conversations based on recency. Steps: Access the conversation list. Check the timestamps or indicators (e.g., "Just now," "1 hour ago") for each conversation.	Medium	The conversation with the most recent timestamp should appear at the top. Older conversations should display in descending order of recency.	In the group or individual chat, the device time is displayed, but in the Social section (outside of chat), it shows the time for Ireland.

Rc_28	The profile image of group chat should be default match Hero logo. User will not have option to upload image for Group.	Tc_245	Check that a newly created group defaults to using the Hero logo as its profile image. Steps: Log in as a user. Create a new group. Navigate to the "Group Chat" tab and view the created group.	Low	The profile image for the group should set to the Match Hero logo.	The Match Hero logo does not appear on Group profile			
		Tc_246	Check that the user does not have the option to upload or change the group's profile image. Steps: Log in as a user. Create or open an existing group. Check the group settings or profile options.	Low	No option to upload, change, or edit the group profile image should available.				
		Tc_247	Check that the default Hero logo is displayed as the profile image in the Groups and Chats tab. Steps: Log in as a user. Navigate to the "Groups" and "Chats" tabs. Observe the profile images for all listed group	Low	All groups should display the Match Hero logo as their profile image in the list.	The match hero logo does not appear as Groups default profile image.			
		Tc_248	Check that the default Hero logo as the group profile image is consistent across devices.	Low	The default Match Hero logo appears as the profile image across all devices	The match hero logo does not appear as Groups default profile image.			
		Tc_249	Check that the Hero logo is displayed as the group profile image in the group chat interface. Steps: Log in as a user. Open a group chat. Observe the profile image at the top of the chat interface.	Low	The Match Hero logo should display as the group's profile image in the chat interface.	The match hero logo does not appear as Groups default profile image.			
		Tc_250	Check that the Hero logo is displayed as the group profile image in notifications Steps: Log in as public player Check received a message of the group invitation.	Low	The invitation request should display the Match Hero logo as the group's profile image.	The match hero logo does not appear as Groups default profile image.			
		Tc_251	Check that the Match Hero logo remains unchanged as the group's profile image after renaming the group		The group profile image should remain as the Match Hero logo.	The match hero logo does not appear as Groups default profile image.			
		Swipe option for Group Chat							
Rc_29	Group chat must have swipe option. When the user swipes a group in the listing section from right to left, three options will appear: Pin Icon: To pin the group at the top. Delete Icon: To delete the group. Edit Icon: To Edit the Group Name	Tc_252	Check that when user swipe right to left against Group chat, these three options should appear: Pin Icon, Delete Icon, Edit Icon						
		Tc_253	Check icons should be same as mentioned in Figma.						
		Tc_254	Check focus area of pin icon. It should be easily tappable within the range.						
		Tc_255	Check focus area of Delete icon. It should be easily tappable within the range.						
		Tc_256	Check focus area of Edit icon. It should be easily tappable within the range.						
		Tc_257	Check when user swipe left to right than these options should be hidden behind the chat listing.						
		Pin Icon							
		Tc_258	Check when user taps on the pin Group chat, it should move on the TOP	High		Facing inconsistent behaviour, Sometimes pinned chats appear on Top instead of recently pinned group			
		Tc_259	Check pinned group chat should on both "Chats" and "Groups Chats" tabs.						
		Tc_260	Check that pinned chat should have pin icon on the top right corner of the chat.	Medium					
		Tc_261	Check that other chat shouldn't have pin icon and remain unpin.	High					
		Tc_262	Check that when user taps on the already pinned chat and unpin it, than it return to its original position on 'chat' tab	High					
		Tc_263	Check that when user taps on the already pinned chat and unpin it, than it return to its original position on ' Group chats' tab

	Fail							
Requirement_ID	Test Scenario	Tc_ID	Test Cases	Severity	Expected Result	Actual Result	Pass/Fail	
Rc_12	When the user taps on this icon, the selected group will move to the top of the list and remain there until the user unpins it by tapping the icon again	Tc_264	Check that After unpinning the Group chat, the pinned icon should be removed from it that was shown on the top right corner of the chat	Medium				
		Tc_265	Check user should be able to pin multiple Group chat at once.	Medium	Each pinned chat appears at the top of the list, maintaining the order in which they were pinned			
		Tc_266	Check User should be able to unpins multiple pinned Group chats .	Medium	Each unpinned chat returns to its original position based on recency.			
		Tc_267	Check that remaining pinned chat stay at the top of the list.	High				
		Tc_268	Check the app after pinning the chats and then restarting the app	High	The pinned chat remains at the top of the list, preserving its state.			
		Tc_269	Check User pins a chat, then receives new messages in other chats.	High	The pinned chat stays at the top, regardless of new messages in other chats.			
		Tc_270	Check When a user pins a chat, it remains at the top of the chat list, regardless of new messages arriving in unpinned chats. Steps: Selects a chat and pins it. The pinned chat is moved to the top of the chat list. A new message arrives in an unpinned chat.	High	The pinned chat should remain at the top of the list, unaffected by new messages in unpinned chats. Unpinned chats should displayed in descending order of their most recent activity, below the pinned chats.			
		Tc_271	Check User pins a chat, then deletes it.	Medium	The pinned chat should remove from the list and other pinned chats remains unaffected.			
Delete Icon								
Rc_13	When the user taps the delete icon, a confirmation message will be displayed, prompting the user to confirm the deletion of the group. If the user selects 'Yes,' the group will be permanently deleted and will no longer be accessible to any users. Note that only the group's creator has the authority to delete it.	Tc_272	Check confirmation on deleting a Group. Steps: Swipe the group from right to left. Tap the Delete icon.	Medium	A confirmation message should be displayed, prompting the user to confirm the deletion of the group with options "Yes" and "No."	Confirmation: Do you want to delete this group (? is missing)		
		Tc_273	Check Group Deletion Upon Confirmation. Steps: Swipe the group from right to left. Tap the Delete icon. In the confirmation dialog, select "Yes."	High	The group should be permanently deleted and removed from the listing. The group should no longer accessible to any members.			
		Tc_274	Check Group is Not Deleted When 'No' is Selected. Steps: Swipe the group from right to left. Tap the Delete icon. In the confirmation dialog, select "No."	High	The group should remain in the listing, and no deletion occurs. The group should still accessible to all members.			
		Tc_275	Check Deletion Option is Only Available to the Group Creator. Step: Swipe the group from right to left.	High	Group creator should have delete icon and should be able to delete group chat within the group through kebab menu of the Group.	Current behavior: Now this icon appears for other group members to but when they click on it, it shows error message only creator can delete this group		
		Tc_276	Check Non-Creator Cannot See Delete Option. Steps: Swipe the group from right to left.	High	The Delete icon should not visible to non-creators of the group and shouldn't be accessible by within the group chat through kebab menu of the Group.	Current behavior: Now this icon appears for other group members to but when they click on it, it shows error message only creator can delete this group		
		Tc_277	Check Behavior When Group Deletion Fails due to Network Error. Steps: Swipe the group from right to left. Tap the Delete icon. In the confirmation dialog, select "Yes."	Medium	An error message should display "Unable to delete the group. Please try again later.", and the group should remain in the listing.	A blank error message appears when the user tries to delete the group or chat with a disconnected internet		
		Tc_278	Check Group Deletion Removes Access for All Members. Steps: Swipe the group from right to left. Tap the Delete icon. Confirm the deletion by selecting "Yes." Attempt to access the group from a different user account.	High	The group shouldn't be visible to all group members			
		Tc_279	Check Notification Sent to Members When Group is Deleted. Steps: 1-The creator deletes the group. 2-Check notifications for all members who had previously joined the group.	High	All members receive a notification stating that the group has been deleted .			
		Tc_280	Check Notification Content for Group Deletion, Steps: The creator deletes the group. Check the content of the notification received by group members	Medium	The notification should include: The name of the deleted group and message indicating that the group was deleted by the creator [Name].			
		Tc_281	Check Notification Sent in Real-Time. Steps: The creator deletes the group. Check the timing of the notification received by group members.	Low	Notifications should be sent in real-time or within an acceptable delay (e.g., a few seconds).

Requirement_ID	Test Scenario	Tc_ID	Test Cases	Severity	Expected Result	Actual Result	Pass/Fail	
Rc_14	If the group is deleted by its creator, a notification will be sent to all members who had previously joined the group. Additionally, if a public player has not yet accepted the group invitation and the group is deleted by the creator, the group join request will no longer be visible to that player.	Tc_282	Check Group Join Request Disappears for Pending Invitees Steps: A public player has received a join request for the group but has not yet accepted it. The group creator deletes the group. Check the pending invitations screen for the public player.	High	The group join request should no longer visible to the public player. It should be removed from the notification section automatically.	Current Behavior: The user received a notification, but the accept or reject modal did not appear.		
		Tc_283	Check No Notification for Pending Invitees. Steps: A public player has received a join request for the group but has not yet accepted it. The group creator deletes the group. Check the notifications for the public player with the pending invite.	Low	The public player does not receive a notification about the group deletion since they were not a confirmed member of the group.	Current Behavior: The user received a notification, but the accept or reject modal did not appear.		
		Tc_284	Check Notification is Not Sent to Non-Members. Steps: A group has members and pending invitees. The creator deletes the group. Check notifications for users who were not part of the group.	Medium	No notifications should be sent to non-members or users who were not invited to the group.			
		Tc_285	Check Notification Delivery for Offline Members. Steps: Some group members are offline when the group is deleted. The creator deletes the group. Check notifications for offline members after they log in.	Low	Offline members should receive the notification about the group deletion once they log in.			
Edit Group Name Icon								
Rc_15	When the user taps on the Edit icon, the screen will open to Edit the Name of the Group.After editing the Name , When user taps on the Done button. The Group name will be updated successfully.	Tc_286	Check Group Name Update Steps: The user is the creator of the group. The Edit Group Name screen is open. Edit the group name in the text field. Tap the Done button.	High	The group name should be updated successfully, and the updated name is reflected in the group listing.			
		Tc_287	Check Group Name is Not Updated on going back without tapping on Done button. Steps: Edit the group name in the text field. Navigate back without tapping Done.	High	The group name remains unchanged in the group listing.	Current Behavior : It shows Next button, when user tap on back icon changes not implemented		
		Tc_288	Check Validation for Empty Group Name Steps: Clear the group name field. Tap the Done button.	High	An error message should be displayed , "Group name cannot be empty.", and the group name should not be updated.	No error message appears (TC-110)		
		Tc_289	Check Validation for Maximum Length of Group Name. Steps: Enter a group name exceeding the maximum allowed length. Tap the Done button.	Medium	An error message should be displayed (e.g., "Group name exceeds the maximum length of 100 characters."), and the group name should not be updated.	No validation set for group name Max length (TC-111)		
		Tc_290	Check Success Message After Group Name Update. Steps: Edit the group name in the text field. Tap the Done button.	Medium	A success message should displayed "Group name updated successfully.", and the user is redirected back to the group listing.			
		Tc_291	Check Non-Creator Cannot Edit Group Name. Steps: On the group listing, swipe right to left or go to group window and visit kebab menu.	High	The Edit icon should not visible for non-creators through swipe action or through kebab menu option..	Current behavior: This option appears for group member but when user click on it , it shows error "You are not allow to edit"		
		Tc_292	Check UI State After Update the group name in the text field. Tap the Done button.	Low	The Done button should be disabled during the update process to prevent duplicate submissions.			
		Global Search						
		Tc_293	Check search icon should present at the top right corner of the social screen.	High				
		Tc_294	Check search icon design should match with Figma.	Low				
		Tc_295	Check new search screen should open when user taps on the search icon. Test Steps: Tap on the search icon.	High	The search screen should appear with an input field for entering a keyword.			
		Tc_296	Check the search input field allows text entry. Steps: Open the search screen. Enter a keyword (e.g., "Messi").	High	The input field accepts text, and the entered keyword is visible in the field.
